

# Condition Monitoring Deployment Starter Kit

## Deploy Real-Time Predictive Maintenance Quickly and Easily to Improve Decision Making in Your Facility

Monitoring the performance and health of equipment is quick, simple and cost effective using the HID Condition Monitoring Deployment Starter Kit. It includes everything needed to deploy a wireless vibration and temperature monitoring solution on a full production line. The system learns the baseline normal behavior of each asset equipped with an HID Condition Monitoring BEEKs™ beacon. With this true predictive maintenance solution, operations receives real-time alerts on changes in machine health to implement remedial action before machines fail.

Avoid costly unplanned downtime, idle labor and work-in-process scrap. HID Condition Monitoring Deployment Starter Kit enables plants to dramatically change their maintenance strategy faster than ever before.

**Advantages**

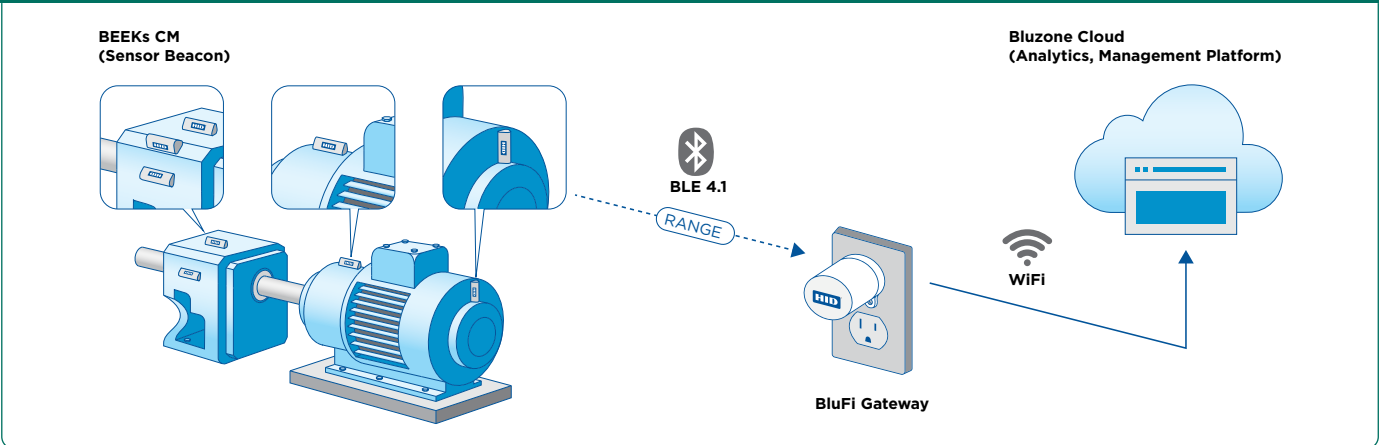

- Everything needed for set-up and installation in one box
- Quick deployment; up and running in hours
- Data visualization in Bluzone™ Advanced Condition Monitoring Dashboard enables remote equipment surveillance
- Lowest-cost system to wirelessly monitor asset health

**Kit Includes:**

- 50 BEEKs™ CMv2 Beacons
- 3 AC BluFi™ Gateways
- 3 DC BluFi™ Gateways
- 1 Year Bluzone™ Activation
- Setup Instructions
- Label Maker for Hardware Identification
- Epoxy With Dispenser for Beacon Mounting
- Surface Prep & Cleaning Supplies

**HOW THE SOLUTION WORKS**

The HID Condition Monitoring Deployment Starter Kit enables plants to dramatically change their maintenance strategy faster than ever before.
